English Essay

50
+ 42

92 = Total marks.

- o Positives - good attempt
- o Observation - Need to discuss content - elaborately
- mention dimensions in more broader perspective
- add eg / facts / data etc
- write headings by improving vocab.

VALUE ADDITION SUGGESTIONS:

Start with a compelling introduction that sets the context and outlines the scope of the essay to engage the reader right from the beginning.

Maintain a clear structure with a logical flow of ideas, ensuring smooth transitions between paragraphs

Include diverse perspectives, balancing arguments with counterarguments

Use relevant, well-rounded examples from history, current affairs, and international contexts to substantiate your points

Integrate relevant quotes thoughtfully, enhancing the depth of the essay without overloading it.

Employ critical analysis, not just descriptive writing, by examining the implications

Incorporate innovative ideas or solutions where relevant.

Pay attention to language and presentation.

Conclude with a strong, forward-looking statement.

1. THE FUTURE DEPENDS ON
(4) WHAT YOU DO TODAY

During the closing hour of the second world war America had bombed Japan with atomic bombs. The radiation from nuclear attack was so vigorous that the next generation of Japan from Hiroshima and Nagasaki has faced the problem of physical disabilities and other radiation issues. But Japan did not look back at second world war and worked hard from the very day to become most successful technologically developed country.

- try to begin by discussing the significance of proactive actions in the meaning of future statement

with beginning with historical context

We have no control over our past or future but what we do today will determine our future. So staying conscious and aware of the present is the key to success after 50 years.

justify this part with a quote of determination and independence after 50 years.

paradox of present and future

connect dots for eg introduction
 should end with the beginning of this
 explanation of the path of non alignment
 move to AMRITKAL @ 1947

But Pakistan being involved with past thought of revenge, has become a failed state. This is the paradox of present with future.

Dimensions to future dependent on present

Historically on the innovating became civilized. Stone age man focused on the present and keep big and wheels and

focus more explaining on the meaning of quote

Similarly the civilized man built Harappan and mahenjodaro civilization planned city by focusing on present

politically India as a democratic country has formulated its lengthier future constitution to shape its future.

These dimensions have to be discussed by covering the core spheres of social, environmental, and so on.
 after context of social dup'm
 today's case and
 Navtej Singh Johar case and
 44th amendment
 India has
 restriction on unidirectional
 declaration of emergency.

Socially India has followed the Russian model to realise the goal of Secularism and promoting each religion without discrimination. India today became a successful democracy as it worked on very present

try to show your headings

Economically the world post cold war era focused on the globalisation effect and today all the major markets of the world are connected with each other. To fight inflation and unemployment countries need to work on boom today itself

Q - A format

Environmentally our earth temperature will rise by 2°C with rapid melting of glaciers and increased pollution levels. The ill effect of environment can be avoided following green economy and closeness with the nature.

justification is lacking

Technologically Sir Isaac Newton consciously thought about the apple from planet and he developed gravity. Similarly the current generation should focus on quantum mechanics and artificial intelligence, to become successful human race in future.

and dimensions need to be fully covered with relevant facts

Present is adjacent side of Future

Historically mauryan dynasty as Dhanananda did not focus on challenges and remained engrossed with enjoyment had led to fall of Nanda dynasty.

impacts of actions

mitigation

politically it the current government does not empower women with care of innocents

with care of innocents

gender budgeting, then it will fail to
monitized its care economy

discuss
present technological advancements
internet revolutionizing communication etc

Socially the society does not understand the value of secularism and mutual coexistence then ISRAEL-GAZA kind of war situation will arise.

ep →

Present good policy Future way forward

politically India as a democratic country is crossing on present with Amrital 9 9047 vision, has worked on its policy of e-Governance to bring transparency and accountability the society

avoid giving

reference of similar fact

women empowerment with 108th amendment India had taken a small step to convert care economy to monitized economy

Farmers doubling of income the verge
 present government is focused on
 good policy, the minimum support
 price, public distribution system
 and direct benefit transfer system
 with e-technology advancement.

Education
youth empowerment
terms should be explicitly defined along with factual data

The vulnerable section with PM-
 PVTG scheme, anta daya yojana,
 Garibkalyan yojana and national food
 security act etc has able to
 reduce multi dimensional poverty issue.

SC, ST and OBC with government active
 policy measures and present focused
 have been empowered in
 the society.

Economically all major economy focussing
 on ~~reducing inflation~~ and fiscal
 deficit to improve country foreign exchange
 reserve to meet its export needs.

India with focus on present worked on its connectivity and post through Bharatmala and Sagarmala initiative to improve its infrastructure. Sector

healthcare
future
and
future generations

discuss elaborately

Financially Indian Banks have undergone subsequent changes with present focus Mission Indradhanush, Basal III initiative Indian public Sector Banks have moved through privatization and globalization.

emphasis
more on
context

technologically the present research and development work on Artificial intelligence and big data analytics will lead to future based Super computer with artificial intelligence Robot

economic
planning and
future prosperity

Robot areq need development to reduce rich and poor gap and

9

and rural - urban divide. So with present policy of Bharat Nirman and Bharat net kinds of initiative rural infrastructure can be improved.

in medicine field with the coming ^{goal} of pandemic, the global scientific community with courage continue their research work to invent vaccine like Covishield and Covaxin etc to treat Covid.

^{goal} with smart city mission India has taken small step towards urbanisation. with the Swachh Bharat initiative and technological advancement India presently become \$ 3.15 trillion economy and with continuous development India will become \$5 trillion economy by 2030.

Future Focused neglecting Present

politically Russia has dream of becoming a political Super power but at present war with Ukraine is deteriorating its future perspective.

good points and well discussed with references.
Pakistan, Sri Lanka with Belt Road Initiative has already made Pakistan and Sri Lanka in debt trap.

Afghanistan under Taliban at present promoting masculinity and neglecting women empowerment and education with a future oriented vision of successful nation will not be successful.

In Bhagabat Gita Lord Krishna has advised to focus on present hard work, without focusing on

future Success and failure .

Blind public distribution system and direct benefit transfer with out bilitering ghost beneficiary will not make India vision of Amritkal.

Low price chinese product dependency with out make in India will not make India Atma Nirbhar Bharat.

Focused present

politically act and recent act India \$5 trillion with 91st ammendment paved the way for 106th ammendment economy by 2030.

Environmentally by 2070 , we need to work T of present by phasing out petrol and diesel car with electric vehicle.

Ethically = recent explosion of mahua
mitra, TMC M.P. from parliament
has shown strong ethics at
work place.

try to mention
cost

community engagement
care study of

volunteer driven
initiatives
and so on.

Women empowerment with gender budgeting
will help to convert non monetized
economy into monetized sector.

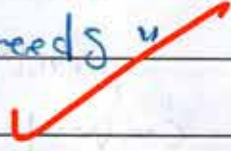

Farmers with e technology
System like drones, robots can
reap the harvest of increased
crop productivity

In defence sector India with
the delivery of S-400 Anti missile
technology will be able to keep Foreign
power at alert with responsible
nuclear doctrine.

Thus present is realisable while
future and past are not in
our control. India and the world

Should focus on sustainable development goals to remove hunger and malnutrition from society

"There is enough for every one needs not for greeds"

Mahatma Gandhi

With Gandhian policy of right means will lead to right ends, so we should work in a non violent manner with the vision of Sarvodaya, and slogan of SABKA SAATH SABKA VIKASHT and SABKA VISWAS will achieve the vision of Amritkal

concluded precisely

50

SUCCESS IS NOT FINAL
 FAILURE IS NOT FATAL : IT
 IS THE COURAGE TO CONTINUE
 THAT COUNTS

Post cold war the world was bipolar.
 there were fight over space race
 between USA and Russia. USA with
 its mission under Neil Armstrong
 had made history. So USA at
 the end of days criticize India's ISRO
 as a future of space power.

good beginning
discussing the
context of topic
could also
discussing the
multi faceted nature
quote
winston churchill
here
here
here

ISRO with initial failed attempts
 with perseverance and courage continue
 its efforts with the view of
 failure is not fatal, today India
 under NASA has been the first
 country to reach moon Southern
 pole. Successfully with Soft Landing

The meaning of the above quote is that one should not deter from its path as he is faced failure, but should stay adamant with courage to achieve success and be ready to work on another dream without considering previous success as final.

→ give eg. Thomas Edison numerous failures
Efforts
Failure is the first step to Success

historically → the early stone age man with no knowledge of fire had tried several approaches to invent fire. But with repeated failure he kept working and finally invented fire.

there are general headings of writing

politically India as a dominant country with freedom in 1947, after two years eleven months and eighteen days of continuous hard work under a drafting committee lead by B.R. Ambedkar had

try to enrich your content by adding statement based headings:-

- Successfully enshrined our + constitution

Socially man was earlier living alone, but with globalisation the obstacles of casteism, racism etc have been removed from society. With the continuous hard work of Raja Ram Mohan Ray and Ishvar Chandra vidyasagar, widow remarriage and Sati practice had been banned.

include references for the arguments such as

terminology

Technologically the human race has developed 1st generation mobile connection. But with continuous hard work with multiple failure the human being is at the verge of implementing technology.

early

don't get distracted from the topic

writes significant

parikhanda

discussion of adversity

Environmentally the global leaders had implemented kyto protocol, earth hour to current Cop 28 discussion of complete ban of fossil fuel.

Economically the sale and purchase of goods by barter system later with continuous research gold coin etc invented and current crypto currency with block chain initiative → **discuss these points with outcomes & events so what it signifies?**

Ethically the society has always followed

Grandhian right means to achieve right d.s. with repeated research work current ethical committee of India parliament recommendation of removal of **T.M.C M.P** from parliament has raised strong ethical sense.

Need to structure content to mention about

World

USA post independence had worked hard to remove racism from its society to become most developed country in the world. Similarly Switzerland with direct democracy has become most wealthiest nation.

failures as learning opportunities

Lack of Courage to face Failure

Historically, Muhammad Bin Tughlaq with repeated failed policy making of copper currency, shifting of capital from Delhi to Daulatabad etc had lead to fall of Muhammad Bin Tughlaq.

good points → *quite case study of the power being*

rejection from multiple publishers, Thomson Education

politically Sudan with terrorism etc. as the key agenda with out facing its failure to implement democratic government is today most violence hit country.

Economically at current times Pakistan excessive dependence on I.M.F fund and loans from china and Saudi Arabia, has become a failed economy.

Socially imposing only one religion at the cost of other religion and

destroying other religious temple and cultural institution on charge of blasphemy will made the society illiterate of its rich cultural history

dimensions are

Environmentally with out following sustainable

development goals and following blind

urbanisation at the cost of

environment will lead to natural

calamities like uttarakhand cloud burst

and recent cyclone michagau in

chennai coast

good justification
but lacking

Technologically with ill motives north

korea is busy in inventing

nuclear weapon and inter

continental missile etc to become

a terror laden state.

Failure and with Success

with rapid technological development like drone technology and robotics with Artificial intelligence the agricultural sector has rapidly grown into most developed with crop diversity

elaborate points and cover them thoroughly with care study of women were denied of their basic rights But with women empowerment budgeting came at

Kenyan Apple - that embraces change of social relationship. context of gender.

vulnerable groups are remained cutoff from main society. But with government continuous effort vulnerable group becomes more empowered

Scientific achievements with repeated failure like to develop vaccine for covid-19 pandemic and biologically human

being covid 19 become successful in inventing vaccine.

Success is not ultimate End

relationship and resilience innovation
5 dimensions broadly

with Bhagabat Gita. focused on work not on result. clearly manifested that end as success is not ultimate happiness

valid points.

India with the soft landing on moon on the southern site as the first country has brought happiness. But with that success NASA and ISRO combined mission NISAR and ISRO Aditya L1 and Gaganyaan are the remaining new mission with success Chandrayan 3 is not ultimate.

social transformation

33% reservation bill passing of which is not the ultimate success rather it's future success of

- proper implementation is to be seen.

mention cases of social change

Human race with the Artificial intelligence is a continuous process with new innovation. work USA change

shaping

Success achieved with deplorable means will never count to be successful.

The mean and end of success need to be pure.

As a civilization continuous debate and discussion to remove anti social clause like child marriage, criminalization of homo sexuality etc

will make society more progressive

with regional disparity is not success. For real growth all stakeholders need to be participated

29
"The Future depends on what we do today"

The above quote clearly defined, that one should keep working even if failure came, but keep remembering that with courage and perseverance success can be achieved.

Socially equal pay, women empowerment with presence of women in defence sector and government of India initiative of 50% reservation of women will empower society.

farmers with e-technology mission, will receive the government subsidy with Bank linked account to remove earlier leakage issue.

The vulnerable group, the poor and marginalized with direct benefit transfer and Antodaya mission, Garib Kalyan Anna yojana will help to achieve S.D.G 1 No Poverty S.D.G 2 zero hunger

well discussed but

Constitution as a living document with changing time continuous amendment to bring successive changes like Triple Talag bill, Women's entry to Sabhimala issue etc

try to elaborate dimensions

Environmentally with the success of Earth Summit, now world is gearing up to achieve zero carbon emission target.

and with various references

India's parichamrut initiative broader goal of zero-carbon by 2070 with no petrol and diesel car by

Change is the way of life

Success can not be ultimate as we are always engrossed with karma. Starting from birth we will never be happy with one success. We will keep trying to achieve more than one success even if failure comes.

explore

with Secularism at its base has always worked to empower women, vulnerable farmers and the marginalized.

with Mahatma Gandhi took with destiny his early mass movement like Champaran Satyagraha, Ahmedabad mill strike and non-cooperation movement etc had gathered the mass and awareness of Ahimsa. With continuous mass struggle British left India with Quit India

movement aftermath

Success is the one side of coin with failure as its opposite site. Society can not be considered to be constant, it must undergo changes to achieve the changes requires at current times.

gagan

As Jawaharlal Nehru promoted scientific temperament to view failure as not fatal and not final, rather our continuous effort with out fear and constant focus on present work will surely lead to success at all times.

India with LOCAL FOR VOCAL campaign, make in India, Skill India campaign will empower its society with the empowerment of women under scheme like matru vandhan yojana

etc, with farmers empowerment by Direct benefit transfer and vulnerable group empowerment with Standup India, Startup India etc will bring true democracy into effect. with success as not final, continuous struggle and hard work to bring changes in the society such as universal civil code etc with the slogan of SABKA saath Sabka vikash and SABKA vishwas and JAI JAWAN JAI KISAN and JAI vishwaq India as a nation will achieve the vision of Amrit kal @ 2047.

conclude with more broader approach by discussing the positive aspects of future dev^m \rightarrow opportunity \rightarrow courage \rightarrow success & failures with guide. etc
